

Addition

- 2 numbers: unit digits of birthday, a number in your car's license plate. Arrange as (B, L) .
- 3 numbers: sum of digits of age, last digit of phone number, favorite number. Arrange as (A, P, F) .
- Can we add those vectors?
- Add $(2, -3)$ to first one and subtract $(1, 0, -1)$ to the other one.

Coordinates

- FoCo $\approx (40, -105)$
- What place is $(0, 0)$?
- What is FoCo $-(30, -21)$?
- What place is $(30, -21)$?
- Difference between both of these places?
